Donna Ewing:

Resident of Barrington for 48 years east of the track along Hwy 14, for the last 48 years it has been tolerable, not that many hold ups with the commuter and freight. Now lives in Barrington Hills and when going to town see many people try to get around the rails. It will make it a huge parking lot. President of Humane Society for Horses. Spent day by tornado in WI that blew over train, 100 people evacuated but not animals. If train car was leaking, could not go back for days and all the animals would have died. If it happened in our town more people would have been affected. This will destroy our way of life in the name of progress and money.
